This event will bring together world-renowned experts in the fields of regenerative medicine and rehabilitation. Medical advances in the field of Regenerative Medicine are accelerating at an unprecedented rate. Re-growing a lost limb, restoring function to a diseased organ, or harnessing the body’s natural ability to heal itself are becoming part of our reality instead of a distant promise. Technologies using biomaterials and cellular therapies to heal the body are in clinical trials and in clinical practice across the country. It is therefore necessary to answer two very important questions.

1. How do we as clinicians and rehabilitation professionals follow up on a patient who had undergone a cellular therapy or a tissue-engineering procedure?
2. And how do we as investigators in the field of Regenerative Medicine make the most of these revolutionary results?

Rehabilitation science and regenerative therapies have to work closely to achieve successful patient outcomes. This symposium provides the opportunity for researchers and clinicians from around the world to gather and learn about the latest developments, share ideas and concepts and create sustainable collaborations.

During this event, participants will:
- Interact with cutting-edge researchers
- Learn of the status of translating scientific discoveries into clinical practice.
- Network with colleagues and potential collaborators.
- Raise questions, debate the implications, plan follow-up studies, and discuss results.
- Share the status of their own research and clinical observations.
- Meet with presenters to learn about their thinking and future research directions.

Participants in the conference will have the opportunity to earn continuing medical education credits.

Sponsored by:
University of Pittsburgh School of Medicine
Center for Continuing Education in the Health Sciences
UPMC Rehabilitation Institute
The McGowan Institute for Regenerative Medicine
University of Pittsburgh School of Health and Rehabilitation Sciences
University of Pittsburgh Department of Physical Medicine & Rehabilitation

Registration Fees
- $245 – Physicians, Scientists, and Faculty
- $125 – Occupational and Physical Therapists
- $125 – Students, Postdoctoral Fellows, Residents, Nurses, and Research Staff

Registration fee includes (for conference registrants only)
- Continuing education credit
- Registration and course materials
- Continental breakfast, lunch, refreshments, and reception
